

An Update from us on COVID-19

THANK YOU all for what you are doing on the frontlines, serving your communities and helping fight COVID-19! First Financial Bank is proud to support independent pharmacy, especially in these challenging times. We have been helping people through this for the last month, are on daily calls with the SBA, and continue to stay on top of all the options to help you. For the best solutions to your needs, please reach out to us, <https://www.ffb1.com/loans/pharmacy-loans/pharmacy-solutions.html>

Whether we have worked together or not, if you need to discuss how the **CARES Act, Paycheck Protection Program (PPP), or the Economic Injury Disaster Loans (EIDL)** relate to your working capital and business needs, please reach out – we are here to help you. There are emergency funds secured from the SBA, up to **\$350B in relief for small businesses**. We expect details will be out within 14 days of the recent passing of the stimulus bill, so more to come soon.

These are uncharted waters and we are all learning as we go, you are not alone. We appreciate all you are doing to keep your communities healthy, know we are here to help!

We will always listen to our customers' needs. Like pharmacies, we have weathered financial challenges and natural disasters. We will all get through this, together! First Financial Bank has been around for almost 100 years, and

has **invested nearly \$300M in community pharmacy** over the last decade. With a **pharmacist and current/former owners on our team for a combined 80 years of pharmacy experience**, we know pharmacy and can help you navigate these uncertain times.
